## Work Experience

### Actor, Scriptwriter, and Director

Sullivan Squared - BOA Stage and Screen Academy  
Premiered July 2023

- This project allowed me to gain experience in multiple different roles in film production, and really develop my knowledge on the complexity of the screen production process.
- As a performer, playing the role of 'River' for all 4 episodes allowed me the opportunity to really develop my character through filming and rehearsing in the same role so often.

### Scare Actor- Paid Performance Work

Drayton Manor- Employed by 'The Experiences Group'  
October 2023

- This role allowed me to develop my skills with live immersive performance, as well as giving me the opportunity to develop specific techniques surrounding scare acting, I learnt the importance of adapting my performance for different audience types, and how to use my skills to create the best experience for guests.

### 'Live Action Zombie'-Paid Performance Work

Insomnia Gaming Festival-Employed by Zombie Infection  
September 2023

- This unique performance role was very physically demanding, but also extremely rewarding and engaging as a performer. I had the opportunity to create my own characterisation and use my body language and physicality to make alterations for a different effect on the participating players.
- Helped me to begin to understand the impact of immersive theatre and my role as a performer in these attraction styles.

### Actor and 2nd Assistant Scriptwriter

'The Protest' BOA Stage and Screen Academy  
Premiering Spring 2024

- This role allowed me to develop my skills in acting and writing to a more advanced, developed level due to having worked on screen productions a few times, meaning my knowledge of working on film productions has improved.
- This project is also a collaborative one-shot film project, meaning communication is extremely necessary to ensure a successful outcome.
