ABOUT MYSELF

My name is Carly-Leigh, i enjoy being creative, and have a passion for acting, i specialise in stage acting, but i also have experience in screen and voice acting. I hope to make a meaningful impression to people through my work.

WHY I DO IT:

I find joy in being able to bring a character to life for an audience. I love working with others to create pieces of work for the world to enjoy. The creativity is what strives me forward to take on these opportunities and experiences.

i hope to bring a part of myself to everything i make. i believe that everyone is needed to make a performance truly come to life, and i enjoy working with peopl from different sides of the crew in order to make a show be really impactful for an audience.

MY PROUDEST MOMENT

One of the moments I'm most proud of was during my final personal project, it took a lot of work and dedication to achieve our final goal and i learnt many things while making my production. and the final outcome was very rewarding.

CHALLENGEN I FACE:

While i enjoy many aspects of being an actor and performer, there are also many obstacles that I face along the way. These challenges have helped to build be as an actor and a person. Such as collaboration with peers who may not be as enthusiastic about the project, i found con often lead to complications and miscommunication. Finding ways for both parties to feel included and to really enjoy the work they're putting in to their piece means a lot for people and allows them to feel as though they can collaborate better with one another. I often also face complications in regards to my disabilities, these can often be the largest setback, but i have found ways to move forward and better myself as an actor. these challenges have changed the way I approach the world of acting for the better and have allowed me to enjoy performing from a different perspective as well.

It allows me to better my self as a person and an actor, along with allowing me the opportunity to develop something i may have never thought of before.
