Over the past 11 years, I have been developing my skills across a variety of sectors, focusing on sport, the arts and entertainment. I have recently begun to freelance in production roles again, using my skills and experience that I have gained in other sectors to ensure I support shoots fully, using my initiative to anticipate issues, taking ownership of finding solutions in a way that is sensitive to the needs and constraints of the production.

I am looking to transition into larger scale tv and film shoots, and have aspirations to be an Assistant Director, specifically focussing on people operations (e.g. overseeing Supporting Artist operations). I feel that my experiences in my previous roles have prepared me for this work especially with regards to people management and would love the opportunity to further my journey towards this goal as a runner/production assistant with the BBC.
